# Executive Summary - Sensible

## Wednesday 10th March - Tuesday 16th March

This week, we have been finalising our semester 1 work, and have started to define how we will start coding the project.

**Rundown of the changes completed for the week:**

- Reflection from Audit 1 complete and ready to present at tutorial
- Summary of important decisions complete in repo
- A more in-depth explanation of the nuances of our project explained in the repo at suggestion from audit
- Risks register complete (on GitLab)
- User story map complete (on GitLab)
- Meeting Minutes published (on GitLab)
- Project code initialised

**To be completed next week:**

- Screen designs to be created and refined based on feedback from client
- Team charter and similar documentation from audit to be included in repo
- Starting development of the project in code.
