Executive Summary - Sensible

Wednesday 17th March - Tuesday 23rd March

This week, we have been working on documentation needed for us to deeply understand our process for developing the project. Next week we look to finalising the last of our documentation and then working on our audit 2 preparation.

Rundown of the changes completed for the week:

- Reflection updated
- Team charter complete (available in the project documentation portion of our gitlab)
- Screen designs complete and advice from client achieved
- Completed communication plan
- Risk register updated
- User story map refined
- Research about sensors completed

To be completed next week:

- Refining screen designs
- Design Class Diagram
- Data Flow Diagram
- Domain Model
- Burndown Chart
- Wireframes
- Audit 2 preparation
